

1. Bibi's 911 call to American Jewry: "Stand up and be counted."
2. In the Nazi Holocaust, they needed to create a super-hate of the Jews to genocidally murder 6 million Jews: The Protocols of the Elders of Zion.
3. Today, Obama is laying the groundwork for a second Holocaust by creating a super-hate of the Israelis: Israel is isolated, not strategically important, and the "core" cause of instability in the Middle East and high gas prices.
4. The simple counter-proof: 370 million Muslims vs. 11 million Greeks with only Israel in between. So, either the 6 million Jews will fight the Muslims in Judea, Samaria, and Israel, or 370 million Muslims, led by Iran, will fight 11 million Greeks in Greece.

6. The West Bank should have been named "The West Heights" and not "The West Bank."
7. 70% of Israel's Population, 80% of her industrial base is in the 10x40 mile coastal plain.
8. "Palestinian Demilitarized State": Unlike Gaza, it's like firing one rocket from Brooklyn into Manhattan.

12. "Palestinian Demographic threat" is actually a right-wing argument. There will be Palestinians when Israel reinvades after a Katyusha rocket attack into Tel Aviv or Ben Gurion.
13. "In the age of missiles land is not important" is actually a right-wing argument. Now, MAD. After a PA state, no Muslim long-range missile disarmament, and the legal *casus belli* for the Muslim states to fire their long-range rockets when Israel re-invades.
14. What's Bibi's "plan"? The Allon Plan, which is the exact opposite of a tug-of-war, it's Israel keeps what is farthest away, and the Palestinians get

what is closest, Western Samaria. It's just a new "Philidelphi" corridor that "existed" in Gaza after the Israeli retreat. Good luck!

15. Bibi thinks he can give up the "West Bank," and keep the actual West Bank of the Jordan.

16. There are many problems with this plan, but please read my "Rabin's 'Allon' Plan".

26. Iranian EMP attack on Saudi Arabia. Iran would take 30,000 living US soldiers hostage, control of all the Persian Gulf Oil and a nuclear umbrella. China and the world would be bankrupted on \$300 per barrel oil.
